

**Flood Water Evacuation Plan Coastal Template LDO Final Oct2020 – Guidance material**

Please remember to update all text highlighted in red which is displayed in the templates to reflect your own business name, details and circumstances. Once you have completed, you might wish to change the red text to black as a reminder of which parts have been completed.

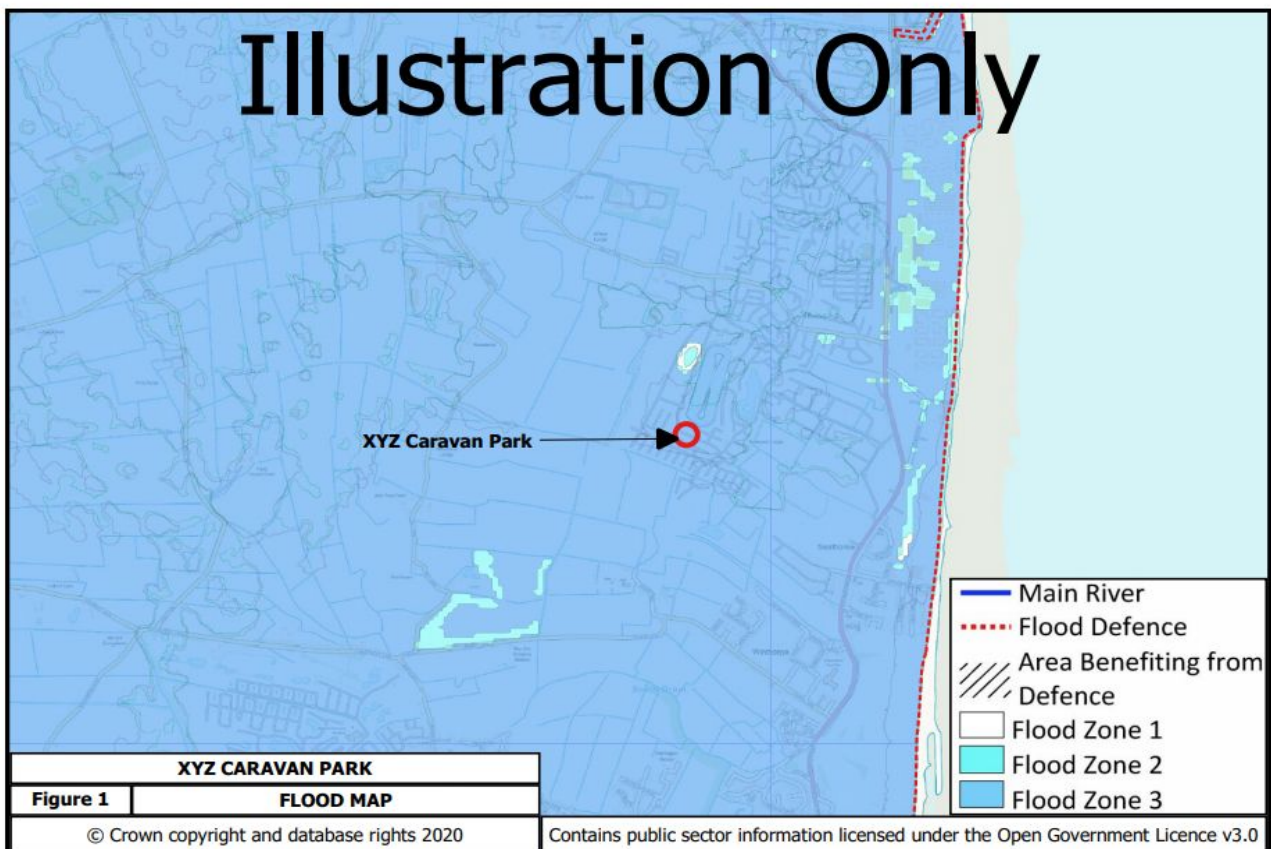

**Examples of Figures to be included in Flood Water Evacuation Plan**

**Figure 1 located on Page 1 or 9.**

You can find this map using the information for the location of your site by following the link provided and entering the postcode.

<https://flood-map-for-planning.service.gov.uk/>

You can print the map off and include it in your Evacuation Plan application – remember to label it as **Figure 1**. Ensure that your site is clearly labelled.

**Figure 2 located on Page 4 of 9.**

You can create the evacuation route map or something similar to the one below by using the postcode of the location of your site and entering into Google Maps or any website you can 'plot a route' on.

Please ensure that you amend the example text highlighted in red on the template to reflect the 'safe evacuation route' on the map you have created.

You can print the map off and include it in your Evacuation Plan application – remember to label it as **Figure 2**. Ensure your 'safe evacuation route' is clearly labelled – as shown below in red arrows.
